Out-of-School Programs #3 Little Warriors Completed on 7/2/2018

Nearly 20% of all U.S. children participate in out-of-school programs (before and after-school programs) and the number is on the rise. Nutrition-related conditions, such as obesity and Type 2 diabetes are also on the rise among our nation's children. The Out-of-School Programs assessment evaluates the extent to which out-of-school programs in your community provide and promote healthy food and beverage choices.

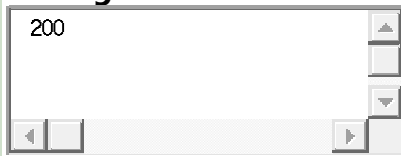

1. Provide the name and the zip code of the out-of-school program that you are assessing. Also provide the average number of children served per day.

Name of Out-of-School Program:

(Limit of 25 characters for display purposes)

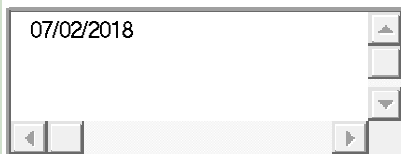

Zip code (5 digits):

Average Number of Children Served Per Day:

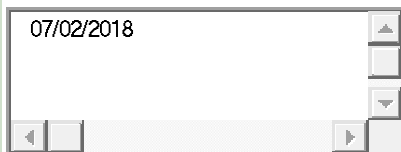

2. Dates you started and ended the information collection process for assessing this out-of-school-time program (MM/DD/YYYY):

Date Started:

Date Ended:

3. How frequently does the out-of-school time program **communicate with parents about healthful eating?**

- Never (0 pts)
- Once per year or less (1 pt)
- 2-3 times per year (6 pts)
- 4 or more times per year (10 pts)

4. Does the program serve food?

- Yes (0 pts)
- No (35 pts)

4.1 Does this program follow these best practices for serving healthy foods:

- a. Participate in **CACFP**, if eligible**

Yes (5 pts)

No (0 pts)

Not eligible for CACFP (5 pts)

b. Serve a fruit or a vegetable at every meal and snack.

Yes (5 pts)

No (0 pts)

c. Serve chips, French fries, or fried potatoes once per month or less
