**Restaurants #1  
Double Deuce  
Completed on 7/26/2018**

According to recent estimates, Americans consume more than 40% of their meals away from home, in various types of restaurants. The Restaurants assessment evaluates the extent to which all types of restaurants in your community offer healthy options at price comparable to other options and promote healthy eating, including providing information about which menu selections are healthy.

[Click here](#) for a downloadable copy of the Healthier Items List.

**1. Provide the name and zip code of one of the most popular, non-chain restaurants in your community.**

**Restaurant Name:**  
*(Limit to 25 characters  
for display purposes)*
